DOING BETTER BUSINESS: ALL UNDER ONE ROOF!!

WHY EXHIBIT AT FREE FROM FOOD ASIA?

Free From is becoming more and more important in Asia, often illustrated by Mintel research, given the high rise of Lactose and Dairy Intolerance among Asian consumers. Vegan is on the rise as one of the mayor trends in the big Asian and Middle East cities with millions and millions of habitants visiting Food Service outlets and ordering online catering every day. Also recent numbers (Euromonitor) indicate that 31% of the total trade is directly interested in buying fee from, organic or vegan food products.
